

The Advanced Technical Certificate in Entrepreneurship in Interior Design prepares students for careers in the interior design industry related to running an interior design business.

The program may also be used to provide supplemental or required training for persons previously or currently employed within the career cluster. This program is exclusively for students who have earned an associate degree from an accredited institution and are seeking to enhance their education and career training.

## Career Options

Graduates qualify for entry-level positions with interior design studios, architectural firms, furniture and design showrooms, and other businesses specializing in interior furnishings. Types of career positions include interior designer, design assistant, sales representatives, CAD operator, interior decorator, merchandise displayer, and space planner. Designers are needed to respond to consumer expectations that the interiors of homes and businesses meet certain conditions, such as being environmentally friendly or more easily accessible.

## Certification/Licensing

With an Entrepreneurship in Interior Design Advanced Technical Certificate, graduates may qualify for entry-level positions with interior design studios, architectural firms, furniture and design showrooms, and other businesses specializing in interior furnishings. Types of employment include interior designer (if a minimum A.S. in interior design is also completed), interior design office manager, interior design project manager, interior design expeditor and procurement.
