

About the Program

The Technical Certificate (T.C.) in Network Enterprise Administration teaches the basic skills and knowledge needed to work as an entry-level computer technician or desktop support specialist.

As a systems administrator, windows engineer, network systems or network administrator, you would be responsible for installing, configuring, and administering server operating systems and services.

This program requires a **minimum of 29 credit hours**. Total program hours may vary based on the student's individual academic degree plan. This program **is eligible** for financial aid.

Program Requirements

Students must fulfill all requirements outlined in the college catalog.

Important for You to Know

This academic roadmap does not include developmental education courses in reading, writing, and/or mathematics or other prerequisite courses that you may be required to take. In addition, it does not include technical certificate graduation requirements.

Students in this certificate program **are not required** to complete math courses unless they are listed as part of the certificate program. Upon successful completion of the program, students may receive articulated College credit toward the Network Systems Technology (2156) (A.S.) degree, which includes a **Mathematical Thinking in Context math pathway**. This pathway is intended for students in the broadest range of programs of study. In this pathway, students will explore a variety of mathematical concepts utilizing multiple ways of thinking to formulate and solve problems in context.

Sample Roadmap

This roadmap shows one possible pathway to complete this program. While suitable for many students, this pathway may not represent the best option for all students.

Prior to enrolling in classes, please **meet with an advisor** for specific guidance about your individual academic plan. Some courses are offered only once per year; advising is critical for course progression.

Term 1

Course	Credits
CTS 1131C - Hardware Configuration	3
CTS 1133C - Software Configuration	3

Term 2

Course	Credits
CTS 1334C - Server Configuration	4
CTS 2302C - Server Administration	4

Term 3

Course	Credits
CTS 2303C - Configuring Advanced Server	4

Term 4

Course	Credits
CTS 2304C - Server Infrastructure	4

Term 5

Course	Credits
CTS 2305C - Advanced Server Infrastructure	4

Term 6

Course	Credits
CTS 2960 - Server Capstone	3
