

The Technical Certificate (T.C.) in Emergency Administrator and Manager prepares students for employment in the field of emergency management.

Students will gain knowledge of all basic tenets in emergency management that are encompassed in phases of mitigation, preparedness, response, and recovery. Along with interactive experience, the student develops knowledge of community planning and coordinator and management functions. Program participants will gain an understanding of problems facing response teams, learn to write emergency plans according to government guidelines, and build communications skills as crisis advisors.
