About the Program

The Technical Certificate (T.C.) in Clinical Research Coordinator prepares students to become competent clinical research professionals with entry-level skills.

This program requires a **minimum of 30 credit hours**. Total program hours may vary based on the student's individual academic degree plan. This program **is eligible** for financial aid.

Program Requirements

Students must fulfill all requirements outlined in the college catalog.

Important for You to Know

This academic roadmap does not include developmental education courses in reading, writing, and/or mathematics or other prerequisite courses that you may be required to take. In addition, it does not include technical certificate graduation requirements.

Students in this certificate program **are not required** to complete math courses unless they are listed as part of the certificate program. This certificate articulates directly into the Clinical Research Professional (2408) (A.S.) degree, which includes a **Mathematical Thinking in Context math pathway.** This pathway is intended for students in the broadest range of programs of study. In this pathway, students will explore a variety of mathematical concepts utilizing multiple ways of thinking to formulate and solve problems in context.

Additional Information

⇒ **Program Information,** including advisor contact details: https://www.fscj.edu/academics/programs/certs/6408.

⇒ **Technical Certificate Information,** including graduation requirements: https://catalog.fscj.edu/academics/degree-certificate-programs/technical-certificates.

Sample Roadmap

This sample roadmap shows one possible pathway to program completion and may not be appropriate for all students.

Prior to enrolling in classes, please **meet with an advisor** for specific guidance about your individual academic plan. Some courses are offered only once per year; advising is critical for course progression.

Term 1

Course	Credits
HIM 1000 - Introduction to Health Information Management and Informatics	2
HIM 1435 - Pathophysiology	3
HIM 2012 - Health Law	3
HSC 1531 - Medical Terminology (for Health Professions)	3

Term 2

Course	Credits
BSC 2085C - Human Anatomy and Physiology I	4
HIM 2442 - Basic Pharmacology for Health Information Management	1
HSC 2732 - Research Methods and Applications	3

Term 3

Course	Credits
HIM 2621 - Health Data Analysis	3
HSC 2734 - Regulatory Affairs in Clinical Research	3

Term 4

Course	Credits
HSC 2739 - Business of Clinical Research	3
HSC 2940 - Clinical Research Practicum I	2
