

About the Program

The Bachelor of Applied Science degree in Logistics prepares students with well-developed writing and critical thinking skills, applied analytic abilities, and experience with supply chain technologies.

This program requires a **minimum of 120 credit hours** including 60 transferrable college credit hours that are completed prior to applying to the program. Total program hours may vary based on the student's individual degree plan. This program is **eligible** for financial aid.

FSCJ bachelor's degree programs are part of Florida's 2+2 Program. For additional information, visit https://www.fldoe.org/core/fileparse.php/3?url=/pathways_to_success.pdf.

Program Accreditation

The B.A.S. Logistics degree program is accredited by the Accreditation Council for Business Schools and Programs (ACBSP). For more information about ACBSP, visit acbsp.org.

Program Requirements

The bachelor's degree is for students who have earned an associate in arts or associate in science degree or 60 hours of transferable college credit. Students must fulfill all requirements outlined in the college catalog.

The following **Lower Division Coursework** will satisfy the prerequisites required for specific upper division coursework:

- CGS 2512C - Spreadsheet Concepts and Practices (Credit Hours: 3)
- MNA 2216 - Inventory Management (Credit Hours: 3)
- TRA 2010 - Transportation (Credit Hours: 3)
- TRA 2098 - Warehouse Management (Credit Hours: 3)
- TRA 2131 - Purchasing (Credit Hours: 3)
- TRA 2152 - Operations Management (Credit Hours: 3)
- STA 2023 - Elementary Statistics (Credit Hours: 3)
or QMB 2100 - Business Statistics (Credit Hours: 3)

Refer to the ***Program Requirements** for General Education Coursework and Lower Division Elective Coursework requirements.

Important for You to Know

This academic roadmap does not include required lower division or general education coursework, which may include prerequisite courses for upper division coursework. In addition, it does not include program graduation requirements.

This program includes a **Mathematical Thinking in Context math pathway**. This pathway is intended for students in the broadest range of programs of study. In this pathway, students will explore a variety of mathematical concepts utilizing multiple ways of thinking to formulate and solve problems in context.
